Pakistan | +92 3191105488 | sameehaahmad25@gmail.com | github.com/Sameeha4/Python_Projects

PROFESSIONAL SUMMARY

Aspiring Python Developer with hands-on experience building Python-based console applications and a strong foundation in programming fundamentals. Skilled in problem-solving, debugging, and version control using Git and GitHub. Eager to contribute to a software development team while continuing to learn new technologies.

TECHNICAL SKILLS

Programming: Python (Variables, Data Types, Loops, Functions, Conditional Statements, Lists, Dictionaries, Tuples, Sets)

Python Proficiencies: File Handling, Basic Exception Handling, Modules

Tools: Git, GitHub, Ollama (Basic)

Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork, Quick Learner

PROJECTS

Expense Tracker

Python

- Designed a command-line application to record and manage daily expenses.
- Implemented features to add, view, search, delete, and calculate total expenses.
- Organized expense records using Python data structures.

Quiz Application

Python

- Developed a multiple-choice quiz application with score tracking.
- Used conditional statements and loops to create an interactive user experience.

AI Chat Application

Python

- Built a terminal-based chatbot using Ollama and the Qwen 2.5 (3B) model.
- Managed conversation history to support continuous interactions.

EDUCATION

Baba Guru Nanak University, Nankana Sahib - Current Student

LANGUAGES & ADDITIONAL INFO

Languages: English, Urdu

Additional: Active GitHub profile showcasing personal projects; committed to continuous learning and software development improvement.
